# AL-KO VARIO SPACE

THE LOW-FRAME CHASSIS FOR THE LATEST GENERATION OF COMMERCIAL VEHICLES

- | More payload and less fuel consumption through lightweight technology
- | Reduced vehicle height improves aerodynamics and reduces CO2 emissions
- | up to 310 mm lower than original chassis
- | Increased driving safety and stability due to lower centre of gravity
- | Improved driving comfort from the suspension specialist
- | Flexible body & storage space design
- | Wide range of variants

Original Chassis

SPACE GAIN

AL-KO VARIO SPACE

Lowering  
up to 310 mm**VARIO SPACE**

For when you need more space.
